An automated time and labor management solution that expands as your company grows — one software system, changing to meet the needs of your business.

Expandable. Affordable. Upgradable.

How Can Pendulum Help Me?

Save Time & Money Manage Your Business More Effectively

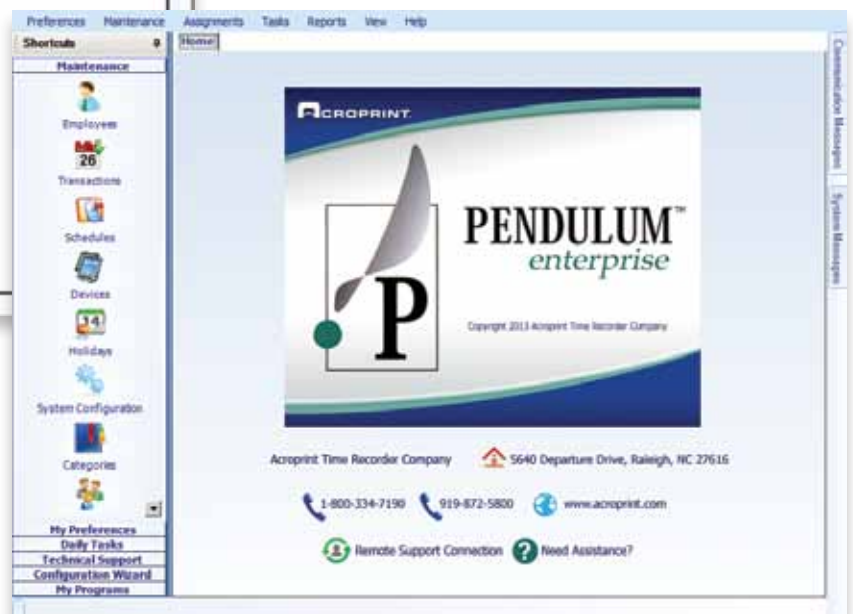

Pendulum offered by Acroprint is a sophisticated, flexible, and feature rich enterprise labor management solution. Pendulum delivers the means to more effectively run your business, control costs, and save you precious time.

Accessible worldwide through the Internet, Pendulum provides the ability to set access parameters for each user; determine job costing levels; evaluate time per task, job and/or unit; and even allow employees the ability to enter tip amounts directly into the clock.

Pendulum effectively addresses your specific needs and requirements for time and labor management. It is an ideal solution for any type of business and scalable to manage any size organization, from 5 to 5,000 employees working at one or multiple locations worldwide.

- Eliminates manual calculation of time cards.
- Eliminates missing punch overpayments.
- Accessible worldwide.
- Automates time and attendance tracking.
- Supports an unlimited number of employees, shifts, pay categories, pay rules, departments and jobs.
- Provides payroll and management reports.
- Allows "Cash" and "Charge" tip recording & reporting.
- Exports hours directly to third-party payroll providers.

Since 1969, Acroprint has helped businesses save time & money on workforce management. Today our products are used every day by hundreds of thousands of organizations and millions of employees worldwide. Contact us today to see why Pendulum is the right choice for you and your business.
